ROOMBOOK 5 - THE WAR OF IMAGES (2012)

Pedagogical University of Cracow
Curator: Halina Cader-Pawłowska

The performance and exhibition is a part of a cycle of exhibitions in process. That projects from the serie "Roombook" are about annexing public and private space for the sake of artistic activity, lasting from a couple of days to a few months. The artists who "live in" those places gather artefacts, create instalations and performance events. The multimedial documentation is an integral part of the whole project.

"The War of Images" is a tribute to the avant -garde and neo avant-garde artists of 20 th century. The project is presents as a promotion of *International Academic & Artystic Programme Towards The Image - Photography in Central Europe* in Kraków 2012.

Authors of the project Konrad Peszko, Daniel Zięcina & art. Group ZRWR are students at the Faculty of Art in Pedagogical University in Kraków.
