

CAFÉ - ČESKÝ FILM

We would like to extend a heart-felt invitation to you to the café “Český Film”, which will be available for visitors during exhibition opening hours. The old chartil has been rearranged to provide space for drinking coffee, tea or tasting delicious Czech beer. The managers of the café would like to encourage visitors with the following words:

“As we all know, the Czech have been created to make the Poles laugh, and Czech beer has been created to please the Poles. And that is what we offer at “Český Film”. Wonderful beer from one of the oldest Czech breweries Černá Hora, which makes the world seem more beautiful, and the people happier. This is for the soul!

But let us not forget about the needs of the body: delicious grilled dishes, soups, salads and traditional Czech honey cake for dessert will certainly meet every taste.

Visit our café and let us transport you into the atmosphere of a Czech film and visit our café. You're invited!”
