

Create your own photo collection!

Wall Done joins forces with Fotofestiwal to encourage the public to engage in the reviving practice of art collecting and once again open a discussion about the place of art in our daily life. Because blank walls are no longer en vogue.

At Wall Done, we believe that anyone interested in art and photography can become a collector; in order to share that view with a larger audience, we assembled a limited selection of choice, high-quality photo prints by the participants of the forthcoming edition of the festival. Individual photos as well as sets of the entire collection will be available for viewing and purchase in one of the Fotofestiwal venue's rooms (Willa Grohmana, ul.Tylnej 9/11, until 20 May) as well as online, at walldone.com Each copy comes with a certificate signed by the author. You no longer just stare or desire, right now you may indulge yourself with a private collection of art.
